ACADEMIC PROFILE

Management, Finance and Accounting graduate and current MSc Procurement and Supply Chain Management student with applied experience in financial modelling, investment appraisal, KPI reporting, credit-risk analysis, and data-supported decision frameworks. My profile fits an MBA environment because it combines managerial analysis, strategy, operations, digital-transformation governance, and performance measurement. For Najran University, my proposed MBA research focuses on assessing AI-enabled digital transformation readiness in Saudi smart-city megaprojects, using NEOM as a bounded case setting and translating strategic alignment, ROI discipline, data governance, stakeholder trust, and Islamic business-ethics principles into an auditable managerial framework.

EDUCATION

MSc Procurement and Supply Chain Management | INSEEC Business School, Lyon, France | Oct. 2025 - Present

- Graduate coursework and projects in procurement performance, cost analysis, operations management, forecasting, KPI modelling, and data-based decision-making.
- Developing analytical tools for resource allocation, institutional performance, operational efficiency, and managerial reporting.

Professional Bachelor's Degree in Management - Financial and Accounting Management | International University of Casablanca, Morocco | Sept. 2022 - Jul. 2025

- Graduated with High Honors / Mention Très Bien; core training in accounting, corporate finance, management control, financial analysis, statistics, economics, business law, and organizational management.
- Final project evaluated outdoor advertising investment profitability in Casablanca using traffic flows, location variables, costs, regulation, and financial performance indicators.

RESEARCH AND ACADEMIC PROJECTS

Integrated MBA Readiness Framework for AI-Enabled Digital Transformation in Saudi Smart-City Megaprojects | Najran University MBA Research Proposal | NEOM case setting | May 2026

- Designed a business-administration readiness framework comparing a generic digital-transformation checklist with an integrated model covering strategy, ROI, operations, data governance, stakeholder trust, and Islamic business ethics.
- Structured the project as an MBA managerial-assessment tool rather than a technical AI system or a confidential NEOM audit.
- Planned methods include literature synthesis, directed document analysis, codebook construction, pilot scoring, scenario comparison, coverage analysis, and sensitivity testing.

AI-MCDM Investment Scoring for Smart Cities under Carbon, Energy, and Geoeconomic Risk | Research Manuscript | INSEEC Business School | May 2026

- Built an AI-enabled multi-criteria investment scorecard combining XGBoost forecasting, carbon-adjusted DNPV reasoning, real-options logic, Fuzzy-AHP/MEREC weighting, and AROMAN ranking.
- Showed why infrastructure investment should not rely only on NPV by integrating financial, environmental, social, smart-city, and geoeconomic criteria.
- Positioned the framework as decision-support evidence for transparent capital allocation rather than automated optimization.

Outdoor Advertising Profitability Based on Road Traffic: Casablanca Case | Bachelor Final Project | UIC / 2ACOM | 2025

- Assessed traditional and digital outdoor advertising investments using SUMO traffic simulation, QGIS mapping, socio-economic indicators, regulatory constraints, and financial modelling.
- Built a model covering CAPEX, OPEX, TCO, ROI, break-even analysis, and a Potential Profitability Index across strategic Casablanca zones.
- Converted traffic-exposure and financial evidence into location-investment recommendations for advertising operators.

PROFESSIONAL EXPERIENCE

- Business Analysis Intern - Financial Performance** | SAN MAROC, Casablanca / Remote | Feb. 2026 - Present
- Analyzed a MAD 97.9B non-performing-loan portfolio using debt aging, recovery probability, and collection-priority logic.
 - Reduced reporting cycle time by 40% using VBA and Power Query; prepared dashboards for collection indicators, payment delays, and recovery rates.
 - Developed practical exposure to credit-risk analysis, portfolio monitoring, recovery prioritization, and financial-performance reporting.
- Business Analysis Intern - Performance and KPIs** | 2ACOM Advertising Sales Agency, Casablanca | May 2025 - Jul. 2025
- Built a five-year financial model integrating ROI, CAPEX, OPEX, TCO, revenue assumptions, and break-even logic.
 - Designed a multi-criteria profitability index with 15+ variables across five Casablanca market zones to support investment-location decisions.
- Analysis and Reporting Intern - Client Portfolios and Risk** | MAGHREBAIL Leasing and Financing, Casablanca | Jul. 2024 - Aug. 2024
- Analyzed financial performance and credit-risk exposure across 20+ corporate client portfolios.
 - Improved reporting outputs related to client commitments, leasing finance, and portfolio monitoring.

CORE SKILLS

- **Strategy and Digital Transformation:** digital-transformation readiness; AI governance; strategic alignment; stakeholder trust; governance criteria; Saudi smart-city context; business-ethics operationalization.
- **Financial Modelling and Performance:** NPV; ROI; CAPEX; OPEX; TCO; DCF reasoning; break-even analysis; scenario analysis; credit-risk analysis; recovery KPIs; portfolio segmentation.
- **Quantitative and Decision Analysis:** statistics; sensitivity analysis; AHP; TOPSIS; MEREC; COPRAS; AROMAN; ranking models; robustness testing; codebook and scoring-sheet design.
- **Spatial and Infrastructure Analytics:** QGIS; SUMO; traffic-exposure analysis; investment-location maps; site-scoring matrices; smart-city infrastructure appraisal.
- **Digital Tools:** Advanced Excel; VBA; Power Query; Power BI; basic SQL; Python fundamentals; dashboard design; Microsoft Office; reporting automation.
